HIGH SPEED GROUND TRANSPORTATION JOURNAL

CUMULATIVE CONTENTS

Volumes 6 through 10

INDEX TO VOLUME 6 (1972)

Winter/Spring No. 1

Towards a Systematic Approach to Design Values 1
Ralph Warburton

Transport Policy Decision Analysis 7
Ata M. Khan

A Framework for Regional Transportation Planning 27
Edwin W. Hauser and William John Cameron

Towards a New States' Policy on Urban Mass Transit 39
Anthony R. Tomazinis

Transportation Planning at the Policy Level 51
V. W. Hogg

The Prospects for Railway Electrification in the United States 59
John W. Barriger

The Lessons of the Penn Central 67
Edwin C. Patton

The Case for Highway Planning 69
Francis C. Turner

Rationalization of Montreal/Toronto-Vancouver Passenger Train Services ... 77
Canadian Transport Commission

Books and Reports 83
Government Releases 100

Summer No. 2

National Transportation Report 155
U.S. Secretary of Transportation

Behavioral Modal Split 179
W. Bruce Allen and Andrew Isserman

A Note on the Ability of Socio-Economic Variables to Explain Attitudinal Bias Towards Alternative Travel Modes 201
David T. Hartgen

A Dynamic Analysis of An Automobile with Unbalanced Wheels 213
S. L. Chiang, W. W. Feng, E. A. Saibel

How many Birthdays for AMTRAK 225
Edwin P. Patton

Books and Reports 237
Government Releases 246

Fall No. 3

On the Applications of Air Cushion Technology to Overland Transport 371
Jo-Yung Wong

Energy Study of Underground Rapid Transit 391
Jack B. Chaddock and Ish Sud

Urban Structure and Rational Public Transport Pricing 409
Francis Knox

A Hybrid Propulsion System for Container Tube Transport 415
James J. Murray
Books and Reports 432
Government Releases 437

INDEX TO VOLUME 7 1973

Spring No. 1

1...Public Liability for Motor Vehicle Noise
JOHN FRENCH III, *Satterlee & Stephens, New York*

17...Ecology's Impact on Transportation
DALE D. MCCONKEY, *University of Wisconsin*

25...Metropolitan Centres and the Environmental Interaction Between Mass Transportation, Land Use and Floor Space Distribution in the Core
GRAHAM F. DE GRUCHY, *University of Queensland*

37...World Transportation Development: Ecological Aspects
T.S. KHACHATUROV AND L.I. WASILEWSKI, *Academy of Sciences–Moscow*

47...The Importance of Development Highways to Balance Growth
ROBERT E. LEAK, *Department of Natural & Economic Resources of North Carolina*

53...The Airport and the Environment
PETER M. LYNAGH, *University of Maryland*

67...Rapid Transit Vs. the Car: How to make Private Decisions Compatible with the Social Good
EDMUND H. MANTELL, *John Hancock Mutual Life Insurance Company*

75...Professional Growth for Better Design
L. J. PIGNATARO, and E. J. CANTILLI, *Polytechnic Inst. of Brooklyn*

81...Decision Processes and Locational Behavior
R. G. GOLLEDGE, *Ohio State University and* R. BRIGGS, *University of Texas*

101...Transport Policy Assessment Costs and Benefits of Environmental Quality
ATA M. KHAN, *Carleton University*

129...The Transition in Urban Transportation Planning
RALPH A. GAKENHEIMER ET AL., *Massachusetts Inst. of Technology*

157...Books and Reports

Summer No. 2

173...Passenger Reaction to London's Victoria Line
MICHAEL ROBBINS, *London Transport*

177...A Containerized Automated Rail-Highway System
JAMES L. LEE AND REGINALD I. VACHON, *Auburn University*

195...A Note on Survival Range of Railroad Passenger Service in the U.S.A.
SUDHIR KUMAR, *Illinois Institute of Technology*

201...A Rapid Transit Link for New Cities Development
James P. Avery, *Arizona State University*

215...Magnetic Suspension and Guidance of High Speed Vehicles
I. A. Alston, J. M. Clark and J. T. Hayden, *Cranfield Institute of Technology*

247...The Air Cushion Vehicle: Key to an Alaskan Transportation System?
Ronald A. Liston, *Hanover, N. H.*

265...Transportation Planning in 1875
Joel A. Tarr, *Carnegie-Mellon University*

289...Books and Reports

294...Book Review: "The Aerodynamics of High Speed Ground Transportation"
A. G. Hammitt

Fall No. 3

297...Noise in Ground Transportation
Edward J. Ward, *United States Department of Transportation*

307...An Empirical Study of Factors Influencing Trip Attraction and Trip Generation
Richard L. Gustafson, *General Motors Research Laboratories*

322...Attitude Measurement in Highway Corridor Studies: Past, Present and Future
Michael E. Gordon and Richard D. Arvey, *University of Tennessee*

341...Transportation for Los Angeles: Some Basic Considerations
John B. Rae, *Harvey Mudd College*

351...A Model Study for Vertical Track Buckling
Arnold D. Kerr, *Princeton University*

369...Recirculating Jet Systems for Ground Vehicles
Gunnar Mouritzen, *San Diego, California*

381...The Importance of Aerodynamics in the Design of Intra-Urban Trains Traveling in Tunnels
Donald W. Kurtz and Bain Dayman, Jr., *Jet Propulsion Laboratory*

401...Books and Reports

Volume 8, No. 1
Spring 1974

1...The Impact of Citizens on Highways
John French III

25...Public School Transportation and Location Policies: A Systems Analytic Approach
Jarir S. Dajani, Donald Wright and K. Preston White
Duke University

41...Dade Area Rapid Transit: A Progress Report
Ralph Warburton, *University of Miami, Florida*

53...Toward Goals for Urban Transportation
Kenneth J. Dueker and Douglas J. McKelvey, *University of Iowa*

71...Organization: The Order of Planning
T. A. Dames and William L. Grecco, *University of Tennessee-Knoxville*

87...Potential Impacts of Rapid Transit and Public Responses to Rapid Transit Plans
Jere J. Hinkle, Robert A. Lowrey and Venkaiah Yedla
CONSAD Research Corporation, Pittsburgh, Pennsylvania

125...Land Use and Transport Interaction: Policy and Planning Implications
Ata M. Khan, *Carleton University, Canada*

153...Subterranean Guideway Responses to Levitation Vehicle Loading
G. Wayne Clough and James F. Wilson, *Duke University*

165...High Speed Ground Transportation Brings New Drainage Problems
Chesley J. Posey, *University of Connecticut*

177...Books and Reports

Volume 8, No. 2
Summer 1974

1...Vehicle Support with Compliant Air Bearings
Charles M. Harman and Henry Lau, *Duke University*

11...The Airtrain: An Aircraft Technology Ground Transportation System
Elvest L. Lehl, *Wichita, Kansas* and Glen W. Zumwalt, *Wichita State Univ.*

17...Selection of Candidate Guideway Parameters for High Speed Tracked Levitated Vehicles
R. J. Ravera and J. R. Anderes, *The MITRE Corporation*

33...Quiet Air Propulsion for High Speed Ground Transportation
Frederick B. Metzger, *Hamilton Standard, Division of United Aircraft Corp.*

41...Planning and Land Banking for a Multi-Modal and High-Speed Transportation Corridor
Wayne W Linthacum, *International Engineering Company, Inc.*

53...Impact of a High Speed Rapid Transit Facility on Residential Property Values
W. Bruce Allen and David E. Boyce, *University of Pennsylvania*

61...Opportunities in the Phoenix-Tucson Land Corridor
Rich Johnson, *Central Arizona Project Association*

65...Political-Economic Factors in Connecticut Transportation Systems
Alexis N. Sommers, *University of New Haven*

71...Transportation and Urban and Regional Development Impacts
John W. Dickey, *Virginia Polytechnic Institute and State University*
R. Sharpe, *CSIRO, Highett, Victoria, Australia*

81...An Empirical Analysis of High-Speed Surface Transportation Fatality Rates
Grant M. Davis and A. Gale Sullenberger, *University of Arkansas*

93...Special Aerodynamic Problems of High Speed Ground Transportation Systems
Andrew G. Hammitt, *Andrew G. Hammitt Associates*

101...Electrodynamic Magnetic Levitation Development in Canada
David L. Atherton and A. R. Eastham, *Queen's University, Kingston, Ontario*

111...Urban Traffic Control Strategy: Efficiency and Safety
J. E. Tolle, *Carnegie-Mellon University*

125.. Specification of Ride Quality Criteria for Transportation Systems: The State of the Art and a New Approach
John J. Fearnsides, *Department of Transportation, Washington, D. C.*
J. Karl Hedrick and H. Firouztash, *Arizona State University*

133...Assessing Social Costs for Transport Route Location
Frederick P. Stutz, *San Diego State University*

139...Behavioral Technology—An Essential Design Component of Transportation Systems
Peter B. Everett and Scott C. Hayward, *Pennsylvania State University*

Volume 8, No. 3
Fall 1974

145...Statistical Ground Excitation Models for High Speed Vehicle Dynamic Analysis
Nathan E. Sussman, *The MITRE Corporation*

155...An Experimental Investigation of Pneumatic Tube Vehicle Systems
Clifford A. Woodbury, 3rd, *Louis Klauder and Associates*
William P. Goss and Jon G. McGowan, *University of Massachusetts*

167...The Design of a Ram Wing Vehicle for High Speed Ground Transportation
E. Anthony Tan, *E. I. Dupont Company*
William P. Goss and Duane E. Cromack, *University of Massachusetts*

185...Improvement of Rapid Transit System Goodness
Paul Kalra and Robert Oswald, *Bechtel Inc.*

195...The Ram Air Cushion—Description and Comparison with Alternate Suspension Concepts
Timothy M. Barrows, *Transportation Systems Center*

213...Ride Quality and Guideway Roughness Measurements of the Transpo '72 PRT Systems
W. C. Caywood and N. Rubinstein, *The Johns Hopkins University*

227...Vehicle Control Performance Requirements and Headway in an Automated Ground Transportation System
Henry A. Camargo, *General Motors Corporation*

237...Economic Criteria for the Development of High Speed Ground Transportation Services in Canada
Ata M. Khan, *Carleton University*

255...Maglev Test Facilities at Messerschmitt-Bölkow-Blohm Munich
P. M. Navé, *Messerschmitt-Bölkow-Blohm*

261...Transportation Innovation and the Reinforcement of Urban Hierarchies
Donald G. Janelle, *The University of Western Ontario*

271...Communication Consideration for Automatically Controlled Urban Transit Systems
A. M. Yen, *The MITRE Corporation*

275...Marketing High Speed Ground Transport
Terry J. Hooper and Everett E. Johnston, *Canadian Transport Commission*

283...Rapid Transit and Urban Geography—A Primer for Phoenix
Charles S. Sargent, *Arizona State University*

291...Planning Massive Accessibility for Central Atlanta: A Study of Misleading Projections
Andrew Hamer and Truman Hartshorn, *Georgia State University*

Volume 9, No. 1
Spring 1975

307...System Energy in High Speed Ground Transportation
Jo Yung Wong, *Carleton University*

321...Design of a Hybrid Underground Rapid Transit System
James A. Tevepaugh, *Lockheed Missiles & Space Co.*
Fred R. DeJarnette, *North Carolina State University*

331...Evacuated Tube Transportation, Energy and the Environment
R. L. Forgacs, *Ford Motor Co.*

345...Energy Demand and Consumption Requirements for Solid-State Controlled L.I.M. Propulsion Systems
Frank L. Raposa, *U.S. Dept. of Transportation*

355...Defining Guideway Irregularity Power Spectra in Terms of Construction Tolerances and Constraints
D. A. Hullender, *University of Texas, Arlington*
T. M. Bartley, *Applied Automation, Inc.*

369...Levitation, Drag and Transverse Forces in Finite Width Sheet Guideways for Repulsive Magnetic Levitation
Boon-Teck Ooi, *McGill University*

375...Design Concepts for Tracked Air Cushion Vehicle Guideways
J. Brent Rauhut, *Austin Research Engineers, Inc.*
B. Frank McCullough, *University of Texas*

383...Energy Regeneration and Conversion Efficiency in a Hydraulic Hybrid Propulsion System
Paul H. Wojciechowski, *Rochester Institute of Technology*
H. Searl Dunn, *Swarthmore College*

393 . . .Nonlinear Analysis of Fluid Suspensios for Tracked Air-Cushion Vehicles
Devendra P. Garg, *Duke University*

407 . . .System Optimization with Differing Demands for Service
William R. Eberle, *Purdue University*

417 . . .Noise Environmental Impact of High Speed Steel Wheel Vehicles
Larry E. Wittig, *Bolt Beranek and Newman, Inc.*

425 . . .Human Factors and Hardware Design Considerations for Passenger Protection in High Speed Crashes
Leslie O. Wilkins and David A. Hullender, *University of Texas, Arlington*

435 . . .Control System Concept for a Passenger Carrying Maglev Vehicle
E. Gottzein, B. Lange (Consultant) and F. Ossenberg-Franzes, *Messerschmidt-Bölkow-Blohm, Munich*

449 . . .Analysis of the Dynamics of a Rail Car from its Response to Random Inputs
W. A. Hutchens, E. C. Haight and J. L. Milner, *The MITRE Corp.*

459 . . .Environmental Impacts of HSGT Systems
Charles Montooth, *Frank Lloyd Wright Foundation, Scottsdale, Arizona*

465 . . .HSGT Systems by Means of Unconventional Suspension—Techniques and Air Transport
P. C. Bittner, P. F. Kilian and J. F. Scheidle, *Messerschmitt-Bölkow-Blohm*

473 . . .A Feasibility Study of Morgantown PRT System for the Center City of Richmond, Virginia
Jason C. Yu, *University of Utah*
Peter S. Argo, *SE and A Engineers and Planners*

483 . . .Dynamic Stability of a Beam Loaded by a Sequence of Moving, Multi-Axle, Mass Vehicles
G. A. Benedetti, *Sandia Laboratories*

495 . . .Access to Airports Using High Speed Ground Modes
Norman Ashford and Peter McGinity
Loughborough University of Technology

503 . . .Ground Transportation to Airports
Johannes W. Kurz, *Boeing Commercial Airplane Company, Seattle*

Volume 9, No. 2
Summer 1975

1 . . .The Future of Transportation in Britain
Rt. Hon. Richard Marsh, *British Railways Board*

13 . . .A Behavorial Analysis of Transportation: Some Suggestions for Mass Transit
Brian C. Deslauriers, *The Pennsylvania State University*

21 . . .Behavorial Sciences in the Service of Planning Cities and Urban Systems
Anthony R. Tomazinis, *University of Pennsylvania*

35 . . .The Role of Psychological Needs in Mass Transit
Claire Tehan and Martin Wachs, *University of California, Los Angeles*

51 . . .The Energy Crisis and Intercity Passenger Transportation
Hugh S. Norton, *The University of South Carolina*

59 . . .Building the Union Pacific Railroad
J. R. Perkins, *Bobbs-Merrill Company*

94 . . .Books and Reports
Joe Rees

Volume 9, No. 3
Fall 1975

107 . . . Sloped Runway Design for Airports
James J. Murray, *Editor, H. S. G. T. Journal*

115 . . . Multimodal Intercity Corridor Study: The Sacramento-Stockton-San Francisco Bay Area Corridor
Stephen C. Lockwood, *Alan M. Voorhees & Associates*
Warren D. Weber, *California Department of Transportation*

151 . . . Energy and Transportation in Canada and the United States
J. Lukasiewicz, *Carleton University*

175 . . . Reduction of Energy Consumption in High-Speed Ground Transportation
Joseph V. Foa, *The George Washington University*

181 . . . Pneumatic Tube Transportation
Charles M. Harman, *Duke University*
Joseph J. Cudlin, *Babcock and Wilcox Co.*

193 . . . Books and Reports
Joe Rees

Yearly volume (three issues): $45.00 ($46.50 beyond N. America)
Address: Editor, H.S.G.T. Journal, Box 4824, Duke Station, Durham, N. C. 27706.
